DETAILED ACTION

1. In response to the communication file 4/14/04, Receipt is acknowledged of a request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e) and a submission, filed on 4/14/04. The submission, however, is not fully responsive to the prior Office action because it is untimely (the prosecution is pending at the time of filing). The amendment to specification is entered; the argument is not persuasive. Claims 1-8 are pending for examination, the objections and rejections cited are as stated below.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1, 2, 4-8 are rejected under 35 U.S.C. 102(e) as being anticipated by Low (US. 6,282,281).

4. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Low as applied to claim 1 above.

5. Low is cited as prior art for rejecting claims in the previous Office Action, which hereby incorporates by reference.

6. In the remark applicant argued in substance that, the prior art of record failed to teach:

A. Operator console

B. The prior art failed to provide motivation in supporting modification operating system from UNIX to Window NT.

As to point a, in the previous rejection examiner contends that the SCP, which connected to network and switch is functioning equivalently to the claimed operator control panel (see Fig 6, 3 and 15; Col. 14, lines 20-50).

Art Unit: 2143

As to point b, Law suggested that the terminal control could be a UNIX workstation, or PC. The term "PC" by itself suggested the use of Microsoft Operating System, e.g., Window NT (see Col. 7, lines 60-67).

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

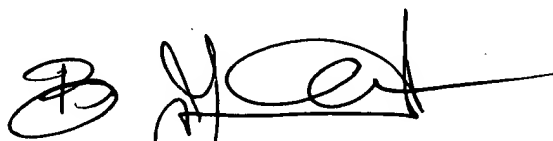

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
